H. B. Whitworth, Esq.

MEDICAL SUPERINTENDENT—Joseph Bayley, Esq., M.R.C.S.

MATRON—Mrs. Grant.

ASSISTANT MEDICAL OFFICER—John H. Bell, Esq., M.D., Edin.

CHAPLAIN—The Rev. R. B. Woodward.

SECRETARY AND STEWARD—Mr. John Godfrey.

TREASURERS—Messrs. Boeme and Page, Union Bank, Northampton.

AT THE

GENERAL STATED ANNUAL COURT OF DIRECTORS

Held the 22nd day of February, 1871 :

The Annual Reports of the Committee of Management, the Medical Superintendent, and the Chaplain were read.

The Statement of Accounts for the year 1870, and the Auditor's Report thereon were also read.

And it was Resolved—

That the above-named Reports and Statement of Accounts be approved and adopted, and that they together with the Financial and Statistical Tables, be published under the direction of the Finance Committee. Also that the Report of the Commissioners in Lunacy and the Report of the Auditor be printed therewith.

It was Resolved Unanimously—

1. That the Thanks of this Court be presented to the Chairman and Vice-Chairman of the Committee of Management for the very valuable services they have rendered to the Institution during the year.

2. That the Thanks of this Court be given to the Noblemen and Gentlemen composing the Committee of Management for their valuable services during the past year.

3. That the Thanks of this Court be given to Messrs. Boeme and Page for their good services as Treasurers during the past year.

4. That the Thanks of this Court be given to R. Howes, Esq., for his good offices as Auditor during the past year.

5. That the Thanks of this Court be given to the Finance Committee for their good offices during the past year.

NORTHAMPTON
GENERAL LUNATIC ASYLUM.

THE REPORT

OF

THE COMMITTEE OF MANAGEMENT,

FOR THE YEAR 1870.

In presenting their Annual Report, the Committee may congratulate the Directors that there are very few topics on which it is necessary to make any lengthened remarks.

The general management of the Hospital by Mr. Bayley and the other Officers has been such as entirely to satisfy the Committee by their zeal and good judgment, and has obtained also the full approbation of the Commissioners in Lunacy, whose remarks are printed herewith.

The state of health and ratio of deaths and recoveries are fully detailed in the Superintendent's Report, and shew a favourable result. The general appearance of the patients has been tranquil and uniform, and all who have left the house have expressed great gratitude for the kind treatment they have received.

The new Infirmary Ward, ordered in 1869, is now substantially finished, and has been occupied for some time. It provides room for 72 new beds of the best description. The cost of this during the past financial year has been £1,247. 8s. 4d. The total cost since its commencement has been £2,520. 18s. 10d. The Committee believe that a visit to this new department will shew that the money has been judiciously, as well as liberally, laid out. There are no additions of any magnitude now in contemplation; but some re-arrangements of existing wards have still to be carried out, in order to afford a better separation and classification of different classes of patients.

The question with the County Magistrates upon their claims of a right of property in the Hospital being now at an end, an agreement has been made with them for the reception of 300 pauper patients until the 30th day of June, 1873, at 12s. 5⅓d. per week for each patient. The Committee much regret that it was not in their power to receive all the county patients, and that 32 women and 12 men have been removed by the County to the Asylums of Leicester and Worcester. This measure was rendered necessary by the over-crowded state of the house, which was a subject of complaint by the Commissioners in Lunacy, to which the Committee felt it to be their duty to give effect.

The financial results of the year have been very favourable ; for, whilst the expenditure upon new buildings and alterations (chiefly on the Infirmary ward) amounted to £1,657. 15s. 1d., the debt to the Bank was reduced from £4,116. 3s. 6d. to £2,686. 19s. 9d.

In view of the entire removal of the County Patients to a County Asylum, and the altered character which this Hospital may assume, it is most important that the whole of this debt should be paid off, and a sufficient sum be accumulated from profits to enable us to meet any future contingencies which may arise.

It is too early at present to make any definite plans or propositions for our future conduct, but there is a general feeling (and one strongly urged by the Commissioners in Lunacy) of the great want of an Asylum where Middle-class Patients can be received at more moderate rates of payment than are now usually required ; and to this view the Directors will probably feel it their duty, as Trustees of a large Charity, to direct their especial attention.

WM. SMYTH, Chairman.

February 22nd, 1871.

THE REPORT

OF THE

COMMISSIONERS IN LUNACY,

UPON THEIR VISIT TO THE HOSPITAL,

ON THE 14TH AND 15TH DECEMBER, 1870.

Northampton Lunatic Hospital,
15th December, 1870.

In the course of yesterday and this day we have inspected the Hospital in its several departments, and, with the exception of one male and three females, absent on leave, and one male criminal, who made his escape in June, 1869, and has not been recaptured, have seen all the patients on the books.

We have to report the following as the changes in the patients since the visit of our Colleagues, 2nd November, 1869, and their present numbers:—

		Males.	Females.	Total.
Admitted		56	76	132
Discharged and Removed		43	55	98
Ditto of whom Recovered		28	42	70
Died		23	23	46
Present numbers on the Books	Private	48	51	99
	Pauper	161	172	333
	Total	209	223	432

Of the male patients discharged, two (both paupers) had escaped, and not been re-taken.

The Northamptonshire pauper patients, for whose maintenance the weekly charge is 12s. 5⅓d., are at present 251 in number, viz., 114 of the male and 137 of the female sex. Twenty (12 males and 8 females) were, in September last, sent under contract to the Leicester Borough Asylum, and 25 females are about immediately, under a similar arrangement, to be removed to the Worcester Asylum.

Of the present pauper patients, 50 (31 men and 19 women) belong to the Borough of Northampton, and 32 (16 men and 16

women) to Peterborough. The weekly charge for the patients last referred to is 12s. 5⅓d.

The rate of mortality since the last visit has been somewhat lower than during the previous year. The assigned causes of the deaths have been as follows :—

	Males.	Females.	Total.
General and Ordinary Paralysis	6	1	7
Other Diseases of Brain, including Apoplexy and Epilepsy	8	4	12
Pulmonary Consumption	3	6	9
Other Diseases of Lungs and Heart	3	4	7
Exhaustion after Mania and Melancholia	0	2	2
Senile Decay	2	5	7
Other Ordinary Causes	1	1	2
Total	23	23	46

Inquests were held in three cases on the male side, viz. :—(1) Accidental Choking, (2) Suffocation during an Epileptic Fit, and (3) Apoplexy.

There has not, since the last visit, been in the Hospital any disorder of an epidemic character, and the health of the patients generally is now good. The patients registered as under medical treatment for bodily ailments are 21 in number, viz., 10 of the male sex, and 11 of the female.

We have to report very favourably of the personal condition as to clothing and otherwise of the patients of both sexes and all classes. One female patient only, on account of her destructive propensities, wore a dress of a special character.

The patients generally were quiet and orderly, and none made any complaints on the score of their treatment.

We yesterday found one female pauper patient secluded, in a state of epileptic mania. According to the Medical Journal, the patients placed in seclusion during paroxysms of violent excitement have been 21 of the male sex and 41 of the female, the former altogether on 127, and the latter on 196 occasions.

The Ward Returns relative to employment may be summarized as follows :—

Males.		Females.	
On the Land	59	Needlework	35
At Trades	43	Laundry and Washhouse	50
Assisting in Wards and Domestic Offices	29	Assisting in Wards and Domestic Offices	73
Total	131	Total	158

Good provision continues to be made for the recreation and amusement of the patients of all classes. They include weekly dances, concerts and dramatic performances, and readings and lectures.

The associated entertainments are, as we are informed, attended, on an average, by about 100 patients of both sexes, the numbers being necessarily limited, owing to the inadequate size of the principal male pauper dining-room, which is at present used for the purpose. A proper recreation hall of sufficient dimensions is a great desideratum.

The attendance at Divine Service on Sundays averages 150, and

at daily morning prayers about 40. These numbers appear to be very small.

The Chaplain imparts school instruction on two evenings in the week to about 12 patients of both sexes.

We have given attention to the question of the sufficiency of the present staff of Attendants, and are of opinion that another attendant is required for the male private patients, and that two additional nurses should be engaged for the pauper females, viz., one in each of the Wards Nos. 4 and 6.

We have to-day seen the patients at dinner in the several wards, private and pauper, and have to report most favourably of the quality of the food, and the mode in which it was served. The private patients are allowed on one day of the week poultry or game, and on another fish.

The wards and rooms, beds and bedding, throughout the Hospital were found by us clean, and in the best order. In some of the female pauper dormitories there are still too many beds, a defect which will be speedily rectified by the removal of patients to which we have referred.

The alterations and improvements which were in progress at the time of the last visit have been continued, and much papering and painting have been done. Ward No. 5 for female private patients has been renovated and re-decorated, and rendered thoroughly comfortable in aspect. The new Male Hospital Ward is nearly finished, but a bath-room and water-closets, as well as suitable furniture, are wanting to render it complete. The dormitories over this hospital, and No. 3 Male Ward are in occupation. The day-room of the ward last mentioned is in course of renovation and improvement, and the stone-floor is about to be replaced by boards.

We have suggested to Mr. Bayley the desirability of providing a fire-place in this day-room, and of opening out a bay, by the sacrifice of two single rooms on the north side of the lobby, opposite to the water closets ; otherwise this portion of the ward would be very dark.

Two excellent rooms near the centre on each side, which will ultimately be used as sitting-rooms, have been constructed in the place of lobbies, small dormitories, and single-rooms, and the centre building generally has been re-arranged, and converted into convenient apartments for officers, and reception and visiting-rooms for patients and their friends.

A good new ironing-room also has been added to the Laundry.

Great progress has been made in the removal of earth at the back of the Hospital, so as to provide for the extension of the airing courts to be formed in connection with the Hospital Ward on each side, and the enlargement of the laundry drying ground.

In the course of these alterations a sum of £300 has been received for ironstone, which has been dug out chiefly by patients' labour.

We are glad that the detached building, known as Male Ward No. 5, is now occupied at night by only 18 patients, one end of it being appropriated to the purpose of a shoemaker's shop. We hope that, ultimately, this building will be disused altogether, as well for sleeping as living.

We learn that agreements have been entered into with the

Justices of the County and the authorities of Northampton and Peterborough for the reception, for a period of three years, of a number, not exceeding 300 in the whole, of their pauper patients. We are at the same time informed by Mr. Bayley that it is the intention of the Directors ultimately to devote the entire Hospital to the reception and care of private patients, and to make such structural and other changes in the buildings and grounds as may be requisite for the purpose.

The lowest charge for private patients is at present 15s. per week. If it could be further reduced, so as to admit of the reception of a limited number at a still lower charge, a want now greatly felt in the country would be met.

The Hospital continues to be under active and efficient management by the General Committee. The Committee of House Visitors consists of six Directors, viz., two in monthly rotation, who may or not be members of the General Committee, and four other Directors, elected quarterly, two at least of whom must be on the General Committee.

We have much satisfaction in again bearing testimony to the ability and energy with which Mr. Bayley discharges his responsible duties as superintendent.

R. W. S. LUTWIDGE, } Commissioners
JOHN S. CLEATON, } in Lunacy.

THE REPORT OF THE AUDITOR

UPON THE

ANNUAL ACCOUNTS.

I have to-day audited the annual balance-sheet of this Institution for the year 1870, and find all amounts correctly carried forward, and cast, and the balance-sheet correct.

As compared with last year, the operations of the Institution have been satisfactory. The receipts for the year 1869 were £19,250. 10s., which included £23. 3s. for donations, and £52. 14s. for ironstone; the ordinary expenditure for 1869 was £17,177. 6s. 10d. ; balance, £2,073. 3s. 2d. And, although the receipts for the year 1870 are less, it will be seen that the expenditure has also been reduced very much in proportion.

The receipts for the year 1870 are £19,037. 4s. 1d., which include £22 for donations, and £320. 17s. 1d. for ironstone ; the ordinary expenditure for 1870 was £15,950. 5s. 3d. ; balance, £3,086. 18s. 10d.

On comparing the extraordinary expenditure, the sum of £1,657. 15s. 1d. has been expended this year in buildings and alterations, as against the sum of £2,839. 0s. 11d. for the same purposes, for the year 1869. The Bank debt, at the commencement of the year 1870, amounted to £4,116. 3s. 6d., and, at the end of the year, to £2,686. 19s. 9d. ; decrease, £1,429. 3s. 9d. The donations above referred to, as received this year, are from Lord Penrhyn, £21, and from the Rev. T. C. Welch, £1 ; total, £22.

All vouchers for payments made in the year 1870 have been produced.

I have also audited the farm accounts for the year 1870, and find that the payments made have (with the exception of £11. 15s. to Mr. Whitlock, for hurdles) been entered in the finance committee book ; and with reference to the item of £11. 15s., the bill has been duly accredited, and the voucher produced. With reference to the farm produce, I would suggest that the farm foreman, in future, keep a separate account, showing all goods sold away from the house on account of the farm.

I have also examined the annual balance-sheet of the farm account, and find that although the rent has been raised this year from £200 to £250, there has been a profit made of £65. 14s. 1d. I find that all vouchers for payments made on account of the farm have been produced.

RICHARD HOWES, Auditor.

February 17th, 1871.

THE REPORT

OF

THE MEDICAL SUPERINTENDENT

FOR THE YEAR 1870.

My Lords and Gentlemen,

I beg leave to submit to you my Report for the year 1870.

On January 1st, 1870, there were in the Asylum 448 patients, of these 47 males and 50 females were private, and 170 males and 181 females were chargeable to the county of Northampton and the boroughs of Northampton and Peterborough.

During the past year 49 males and 66 females, total 115, have been admitted; of these 13 males and 16 females were private, and 36 males and 50 females were county and borough patients.

One hundred and nineteen have been discharged; of these 10 males and 11 females were private, and 30 males and 68 females belonged to the county and boroughs.

Forty-four deaths have occurred, 22 of each sex; of these two males and four females were private, and 20 males and 18 females were county and borough patients.

The total number under treatment during the year amounts to 563, viz., 266 males and 297 females.

The average number resident has been—males, 209; females, 224: total, 433.

The number remaining in the Hospital on January 1st, 1871, was 400, viz., of the private class, 48 males and 51 females; of the county class, 156 males and 145 females.

The following are the Statistical Tables which are usually printed with this report:—

TABLE I.—*Showing the Admissions, Re-admissions, Discharges, and Deaths, during the year* 1870.

	M.	F.	T.	Males.	Females	Total.
In the Asylum, 1st January, 1870				217	231	448
Admitted for the first time during the year	41	54	95			
Re-admitted during the year	8	12	20			
Total admitted				49	66	115

There has been a decrease of five in the total number of admissions, as compared with the year 1869.

The number of private patients admitted has been exactly the same, viz., 29 in each year.

The number of male county and borough patients admitted has been remarkably small, only 36. The number of females of the same class has been about the average of former years.

The average number of private patients resident has been 93.

The number discharged, 119, is unusually large, but this includes 44 county patients removed,—20 to the Leicester and 24 to the Worcester Asylum, in order to reduce the numbers in the Hospital to that fixed upon in the last agreement with the county. Of the 75 remaining 66 were discharged recovered, six had improved sufficiently to return to their homes, one was transferred to another Asylum not improved, and two were discharged after having escaped and remained away from the Hospital beyond the time allowed for their re-capture.

The death rate for the past year has not been high. The causes of death have been chiefly senile decay, general paralysis, bronchitis, and phthisis.

The sanitary condition of the Hospital has been good. There has been no epidemic, although both typhoid and scarlet fevers have been prevalent in the neighbourhood.

Inquests were held in the three following cases :—

1st. —W. S., died suddenly of apoplexy.

2nd.—W. H., suffocated by turning over on his face in bed when in an epileptic fit.

3rd. —J. D., suffocation from over-filling the mouth with food.

These cases were all reported to the Committee of Management at the time, and also to the Commissioners in Lunacy.

I am thankful to be able to report that there has been no serious accident, and that no case of suicide has occurred during the year ; this, considering the large number of suicidal cases in the Hospital, speaks well for the care and vigilance of the attendants and nurses.

Restraint has not been used at all, and very few patients have been secluded.

Nine males and five females have escaped ; these, with one or two exceptions, were only absent a few hours. In two cases, however, the patients have not been re-taken. One, F. E., was allowed to go home to spend three days with his daughter, who undertook to be responsible for his care, and to bring him back at the proper time ; he did not return, and I have since ascertained that his friends assisted him to go to London and Southampton, and I have reason to believe that they never intended to bring him back again. The 2nd, G. M., who had worked upon the farm for a long time, was employed with an attendant building a wall at the farm. He was sent by the attendant to get some stone from a heap close by, but did not return. The morning was very foggy, and he appears to have taken advantage of this to escape. We have made enquiries about him in all directions, but have not been able to get any clue as to what has become of him.

All the patients of both sexes who were capable of doing any-

thing have been employed in such occupations as they were fitted for. (See Table 13.) The removal of the bank at the back of the Hospital, the quarrying ironstone, and the formation of the new road from the back entrance lodge has given employment to a large number of patients. The sum received for stone sold during the year amounts to £320. 17s. 1d.

The profit on the farm for the past year would have been small under any circumstances, owing chiefly to the failure of the hay and other crops, in consequence of the dry season, but it has been still further reduced by an addition of £50 to the rent; it only amounts to £65.

In June last a party, consisting of 13 gentlemen and nine ladies, with attendants and nurses, spent a month at Eastbourne, where two houses had been engaged. The Assistant Medical Officer, Dr. Bell, and the Matron were in charge of the party. The trip seems to have been much enjoyed by all, and in one case, at least, I think the recovery and discharge of the patient may be attributed, to a great extent, to the improvement caused by his residence at the sea-side.

The following is a list of the amusements provided during the past year :—

1.	Jan.	7.	—County Patients' Annual Ball.
2.	,,	14.	—Private Patients' Annual Ball.
3.	,,	20.	—Concert.

At our Concerts, Readings, and Lectures we have been assisted by several patients, especially by one whose lectures on Natural Philosophy were most interesting. Several ladies and gentlemen from the town have also kindly assisted at our Concerts. It is, however, to the officers, attendants, and nurses belonging to the Glee Class, Theatrical Company, and Band, under the able direction of the Chief Attendant, that we are chiefly indebted for these entertainments.

The additions and alterations on the male side are now nearly

completed, and those in the centre building quite. The work done during the past year is fully described at page 43 of this report.

The Commissioners in Lunacy visited the Hospital on November 14th and 15th, and their report will be seen at page 7.

The only change in the staff of officers was that caused by the death of Dr. Berrell. In his successor, Dr. Bell, I have an able and efficient colleague.

There have been few changes amongst the attendants, nurses, and other servants, and their conduct has been very satisfactory.

I have the honour to be,

My Lords and Gentlemen,

Your obedient Servant,

J. BAYLEY, Medical Superintendent.

THE

REPORT OF THE CHAPLAIN,

FOR THE YEAR 1870.

My Lords and Gentlemen,

It would be to me a source of extreme gratification if I could state that every matter connected with the duties entrusted to me as the Chaplain of this Institution had proceeded to my entire satisfaction during the year recently ended; but I feel that I am under an obligation to inform you that during the last ten or twelve weeks the number of the patients who have attended the services of the Chapel on the Sundays and week-days have been many fewer than heretofore, and that when, in my daily visits to the wards, I have spoken of the circumstance, and expressed my regret that such was the case, one and the same reason has, on each side of the House, been assigned, viz., that they were afraid to come to the services in consequence of the intolerable coldness of the Chapel; and I must acknowledge that my own feelings whilst officiating told me that they had more than sufficient ground for this complaint. Here, then, I must remark that this uncomfortable state of the Chapel is not entirely to be attributed to the more than ordinary severity of the winter, although it has, no doubt, been increased by it, but in a far greater degree to the failure of the present mode of warming the building by a current of steam conveyed by an iron pipe from the engine attached to the Laundry, which must, in its long passage from thence to the Chapel, lose by far the greater portion of its heat; and that this is really the case is most evidently to be seen along the course of its passage, as the snow or ice is invariably melted on the surface of the ground above the pipe. This exhaustion of the heat of the steam may also be in part attributed to the fact of its being employed to warm an additional portion of the male wards.

Under these circumstances I may be pardoned, perhaps, for expressing my hope that, previous to the approach of another winter, you will deem it expedient that some more suitable mode of warming the Chapel should be adopted, and that the ventilation may be so improved as to prevent the strong downward current of cold air from the roof, which is now a source of great discomfort.

In reference to other matters connected with my office, I am very happy to inform you that everything has been conducted in the most satisfactory way; that every Officer attached to the Institution appears desirous of discharging the duties of his or her post to the utmost of his or her power; that the attention and kindness I have constantly experienced from all of them, and the kind expressions of regard I have from time to time received from very many of the patients, have tended, in a great degree, to render the daily routine of my charge the more pleasing to me.

I have the honour to be,
My Lords and Gentlemen,
Your obedient Servant,

R. B. WOODWARD, M.A., Chaplain.

Stock, Implements, and Cash, December 31, 1870	941	11	9
	£1,843	5	8

Examined, 17th February, 1871.—R. HOWES, Auditor.

Explanation.—The labour charged in the above Account is for the Farming Man and one Labourer; but, in addition, there are four Attendants paid for from the General Account, who, with the Patients under their charge, are usually employed upon the Farm. The Patients' Luncheons are not charged in the above account.

All other Expenses whatever incident to the cultivation of the Land, as also £5 an acre for Rent, are charged in the above Account.

TABLE I.

A RETURN OF THE WORKS CARRIED OUT DURING THE YEAR 1870 BY THE BUILDING COMMITTEE,

Under the Supervision of the Secretary.

Description of Work.	Cost. £.	s.	d.
Hospital Ward: An addition to the Male Side, commenced in 1869, to give the following extra accommodation:—Thirty single Bedrooms, and six Rooms to be used either as Day-rooms or Dormitories, the size of each being 31 feet by 22 feet 6 inches. Amount expended in 1869, £1,273. 10s. 6d.; ditto, in 1870	1,247	8	4
The whole of this building is now occupied, but various details, which are connected with alterations in the adjoining buildings, remain to be finished.			
Centre Buildings: Extensive alterations in the centre block of buildings, by which spaces formerly occupied by lobbies, small sitting-rooms, and single dormitories have been converted into the following accommodation:—On the Male Side: Two Day-rooms for Gentlemen, looking on to the lawn, the size of each being 25 feet by 22 feet 9 inches; a Bedroom, the same size, Chief Attendants' Office, a Water-closet, and a single Bedroom. On the Female Side: Rooms exactly similar in all respects. The work also includes a re-arrangement of the Entrance Hall, the removal of various doors to more convenient positions, and several new doors. Amount expended in 1869, £106. 13s.; ditto, 1870	333	12	7
Sewage: An arrangement for spreading the Sewage on the Land without retaining same in a Tank, including the Ventilation of Sewers	22	2	2
Fittings for New Ironing Room	10	13	0
Water Sluices in various parts, as a precaution against Fire, arranged so as to be suitable for the Town Engines	32	19	0
An Alteration in the Entrance Hall of the Medical Superintendent's Residence, to give more light	11	0	0
	£1,657	15	1

Of this amount £1,200 is carried to the Capital Account, the remainder being for internal improvements, which do not add to the intrinsic value of the Buildings.

TABLE II.

RETURN OF THE NUMBER OF OFFICERS, ATTENDANTS, AND SERVANTS, WITH THEIR SALARIES AND WAGES, ON THE 31st DECEMBER, 1870.

OFFICE.	Annual Salaries & Wages. £.	s.	Other Emoluments.

TABLE XI.

DIET TABLE.

PAUPER PATIENTS.

BREAKFAST.

Males—6 oz. of bread, ½ oz. butter, and 1 pint of coffee.
Females—6 oz. bread, ½ oz. butter, and 1 pint of tea.

DINNER.

Sundays Tuesdays Thursdays	Males—11 oz. of uncooked meat, 12 oz. uncooked vegetables, 3 oz. bread, and ¾ pint of beer. Females—9 oz. of uncooked meat, 12 oz. uncooked vegetables, 3 oz. bread, and ½ pint of beer.
Mondays	Males—1¼ lb. Irish stew, 3 oz. bread, and ¾ pint of beer. Females—1 lb. Irish stew, 3 oz. bread, and ½ pint of beer.
Fridays	Males—10 oz. Irish stew, 8 oz. pudding, 3 oz. bread, ¾ pint of beer. Females—8 oz. Irish stew, 6 oz. pudding, 3 oz. bread, ½ pint of beer.
Wednesdays and Saturdays	Males—16 oz. meat pie, and ¾ pint of beer. Females—12 oz. meat pie, and ½ pint of beer.

TEA.

Males—6 oz. bread, ½ oz. butter, and 1 pint of tea.
Females—6 oz. bread, ½ oz. butter, and 1 pint of tea.

SCALES, &c., FOR ARTICLES UNDER-MENTIONED.

Per Gallon.

Tea—1 oz. of tea, 3 oz. of sugar, and ½ pint new milk.
Coffee—3 oz. of coffee, 5 oz. sugar, and ¾ pint of new milk.

Per Pound.

Meat pie—2 oz. uncooked meat, 12 oz. uncooked potatoes, 5 oz. flour, with dripping.
Irish stew—2 oz. meat, 10 oz. potatoes, seasoned with pepper, salt, and onions. The liquor of the previous day's boiled meat is added to the Irish stew.

EXTRAS FOR INDUSTRIOUS PATIENTS.

Female Patients employed in the Laundry, the workers on the Farm, Artizans, Ward and Household Helpers, have four ounces of bread, one ounce of cheese, and a pint of beer extra, daily.

Tobacco and Snuff are also allowed to Industrious Patients.

Wine, Porter, and Extra Diet are allowed to the Sick at the discretion of the Medical Superintendent.

PRIVATE PATIENTS.

Weekly Allowance per Patient.

MALES.—6lbs. uncooked meat, 7 lbs. uncooked vegetables, 7 lbs. bread, 12 oz. cheese, 10½ pints of beer, 8 oz. butter, 2 oz. tea, 8 oz. sugar, 1½ pint new milk, pudding four times a week, fish once a week, poultry or game once a week, and fruit when in season; besides extra diet if required.

ATTENDANTS.—Same allowance, except fish and poultry, with the addition of 3½ pints of beer.

FEMALES.—4½ lbs. uncooked meat, 7 lbs. uncooked vegetables, 5¼ lbs. bread, 12 oz. cheese, 7 pints of beer, 8 oz. butter, 2 oz. tea (or 1 oz. tea and 4 oz. coffee) 8 oz. sugar, 1½ pint new milk; pudding four times a week, fish once a week, poultry or game once a week, and fruit when in season; besides extra diet, if required.

NURSES.—Same allowance, except fish and poultry.

In addition to the above, 26,746 Articles have been Repaired.

The Washing of the whole Establishment has been done by Female Patients, under the direction of three Laundry Maids.

RULES FOR THE ADMISSION, VISITING,

AND

DISCHARGE OF PATIENTS.

Applications for the Admission of Patients, or for information regarding the various rates of payment at which Patients are received, must be addressed to the Resident Medical Superintendent, from whom may be obtained printed forms of the papers necessary to be completed and signed before the Patient can be received into the Hospital, and all other information required as to the means of conveying the Patients.

The terms of admission vary from one guinea per week, according to the circumstances of each case.

These terms may be reduced after the first quarter, if the friends of the Patient prove, to the satisfaction of the Committee of Management, that they are not in a position to afford so much.

The terms include board, lodging, washing, medical advice, medicines, and all other necessaries; clothing, and wines and spirits only excepted. Terms to include the latter items may be proposed.

One quarter's payment is made at the time of admission, and the payments are afterwards made quarterly and in advance. The Committee do not bind themselves to make any return of payment on account of the first quarter.

The friends of Patients are invited to satisfy themselves of the condition of their relatives, and the treatment they receive, by making frequent visits to the Institution.

Patients may be visited on any day, except Sunday, between the hours of ten and twelve, or two and four.

If the friends, or those who are security for the board, wish to remove a Patient, they shall give five days' notice, in writing, to the Medical Superintendent.

With every Patient a supply of suitable clothing must be brought to the Hospital, together with an inventory of the same, and of any other property left with the Patient; and when a Patient's clothes are worn out or destroyed, they must be renewed as often as necessary by the person responsible for the Patient's board on notice to that effect being given; and should such notice not be attended to, the Medical Superintendent may order the clothes necessary for the Patient, the expense of which shall be charged to the next quarter's account.

The utmost attention and care are exercised in the classification of the Patients according to their habits and different degrees of mental aberration. Ample means of amusement and occupation are provided, and every method is resorted to for the amelioration of the condition of the inmates. The utmost liberty, consistent with safety, is permitted, and carriage exercise provided daily for those requiring it.

Divine service is performed twice every Sunday in the Chapel, and prayers are read each morning by the Chaplain, who devotes the whole of his time to his duties at the Hospital.

A Library is provided for the use of the Patients, containing publications of a cheerful and instructive character.

The Institution is pleasantly situated in a healthy locality within a short distance of the town of Northampton.
